

Home Phone Service

Because Everyone Needs A Home Telephone!

Because phone service is so important in today's world, TSI believes everyone should have access to it. The Lifeline plan makes phone service even more affordable for qualified customers, including custom calling features and no deposit's required for local service. If you've been living without phone service because you could not afford it, you may eligible for special assistance. The goal at TSI is making telephone service affordable, by participating in low-income Telephone Assistance programs in all the states where it provides service. TSI is committed to helping qualified low-income individuals to get and maintain home telephone service.

Attention: You are authorized to photocopy this form for others.
